

DWIGHT GLOBAL

Dwight School's Campus in the Cloud

Your dreams have no limits.
Your school shouldn't either.

Our Mission

For nearly 150 years, Dwight has been dedicated to igniting the spark of genius in every child through highly personalized learning, community engagement, and global vision. Dwight Global is the 21st century extension of this unique educational philosophy, bonding students' passions and academics in a highly supported flexible learning environment.

An Online School Like No Other

With real-time online video conferencing seminars, Oxford-style tutorials, and a college-style schedule, students experience the intimacy of an independent school coupled with the freedom to pursue their passions.

Five Campuses, One Philosophy

While students can attend our cloud-based school from anywhere, they can also study at any one of Dwight's campuses in New York, London, Seoul, Shanghai, and Dubai.

The Dwight Global Diploma

Dwight Global students must meet the same exacting standards of Dwight School in New York. Students may align their academic paths with the International Baccalaureate, the Advanced Placement, or their own personalized course of study.

Your Path to College

College guidance starts in grade nine at Dwight Global. Harvard, University of Pennsylvania, Cornell, Brown, Dartmouth, McGill, Vassar, and NYU are among Dwight students' recent college acceptances.

Faculty

Our inspiring faculty encourage our exceptional students to believe in their own talents, follow their hearts, and take intellectual risks through a rigorous, personalized course of study.

Real Students, Real Stories

Dwight Global students are scholars and athletes, actors and performers, entrepreneurs and adventurers. At Dwight Global, the pursuit of excellence in one domain does not mean having to settle in others.
